would you like to become a
virtual dog parent?

Pet dogs are abandoned in Chennai every day. An abandoned dog's story may break your heart but you may not be able to adopt the dog yourself. Alternatively, can you sponsor the dog's upkeep for life? If yes, Dog House's Distance

Puppy program allows you to become a virtual parent. Distance Puppy aims to give people who are genuinely committed to sponsoring an abandoned dog's life, an opportunity to do so. We are talking about paying for the dog's housing, food and healthcare for 1-15 years, depending on whether the dog you're virtually adopting is young, middle-aged or a senior. It takes an unwavering, long-term commitment, financially and emotionally. If you have it in you to make that commitment, Dog House will take on the physical work involved in caring for the dog. And you're welcome to visit your Distance Puppy whenever you can and would like to. Distance Puppy allows you to become a virtual dog parent

from any corner of the globe. You can pick a needy dog you already know for this program or we can help you pick one. At some point, should you wish to physically adopt the dog and take him/her home with you, we will be happy to assist you with the process. If you wish to become a virtual dog parent and have a dog in mind or would like us to pick one for you

Know More About Us

Dog House offers both AC and non-AC kennels of different sizes to suit dogs of different breeds. While the more heat-intolerant breeds require AC in the hot hours of the day, we also host many Indian hounds and other large breeds who prefer our airy and spacious non-AC kennels that allow them a view of our lush-green outdoors.

Dog House offers FREE and UNLIMITED swimming to dogs boarding with us.

Swimming, besides helping your dog beat the sweltering Chennai heat, is also great exercise and can be therapeutic for Arthritic dogs.

Dog House is a 15,000-sft. (6 grounds) property flaunting a massive, open-to-sky play area. Dogs love to run and play in our huge yard. We offer a beautiful, lush-green environment, fully secured by high walls.

Dog House's swanky ride for the VIPs (Very Important Pets) is equipped to escort dogs all over Chennai. If your dog is boarding with us, we offer pickup and drop regardless of which corner of Chennai you're in!
